TILIE Admissions Guide

Tocoda Institute of Linux & Infrastructure Engineering

BUILD	SECURE	AUTOMATE	SCALE

1. Choose your learning pathway

Review the TILIE schools and identify the programme area that best matches your goals.

- School of Digital Literacy
- School of Linux Systems
- School of Data & Automation
- School of Cybersecurity
- School of Agricultural Drones & Emerging Technologies

2. Prepare your application details

Have your full name, email address, phone/WhatsApp number, chosen school, preferred programme, experience level and preferred intake ready.

3. Submit online

Complete the Admissions form on the TILIE website. The website is designed to submit directly through the configured form service, so applicants do not need to open an email application.

4. Admissions follow-up

TILIE can follow up using the contact details supplied in the application. Applicants may also contact admissions directly on WhatsApp.
